

**REMARKS**

Consideration of the above amendments is respectfully requested. Initially, a typographical error appeared in the PCT Request with regard to the spelling of "peptide" in the title of the application. A request for correction has been made with the Korean Receiving Office, however, since the error appears in the WIPO publication, Applicant requests its correction herein. The above application has also been amended to add the reference to the international application and its priority application. The specification has been further amended to conform it to US practice with regard to the title headings. In addition, the claims, which had been amended under Article 34 and which amended claims are attached as an annex to the International Preliminary Examination Report, have been further amended to remove multiple dependencies. A small grammatical error was also corrected in the claims. No new matter has been added. Accordingly, an early examination of the application is respectfully requested.

The Commissioner is authorized to charge any additional fees that may be required to Deposit Account No. 50-0320.

Respectfully submitted,  
FROMMER LAWRENCE & HAUG LLP
